

Inspection of Wismari Hospital

On 15 November 2012 advisers to the Chancellor of Justice paid an unannounced visit to Wismari Hospital.

As a result of the inspection the Chancellor of Justice makes the following suggestions to Wismari Hospital to guarantee the fundamental rights and freedoms of persons:

- to create a separate register on the application of restraining measures that gives a quick and generalised overview of the restraining measures applied;
- ensure that mechanical restraining measures are applied in the intensive care ward only if constant monitoring of the mechanically restrained person is guaranteed and the patient has been isolated from other patients;
- guarantee the existence of a safe isolation room if isolation is applied at Wismari Hospital.
