

Inspection of the Paide and Rapla cellblocks of the Detention House of the Law Enforcement Office of the Western Prefecture of the Police and Border Guard Board

On 11 December 2012 advisers to the Chancellor of Justice paid unannounced visits to the Paide and Rapla cellblocks of the Detention House of the Law Enforcement Office of the Western Prefecture of the Police and Border Guard Board.

As a result of the inspection the Chancellor of Justice makes the suggestion to the Police and Border Guard Board to find possibilities to guarantee the legal rights of the persons detained in the Paide and Rapla cellblocks by employing extra officials or changing the existing organisation of work.
