

Inspection to the Psychiatry Clinic of Pärnu Hospital

On 9 December 2013 advisers to the Chancellor of Justice paid an announced visit to the inpatient department of the Psychiatry Clinic of Pärnu Hospital.

As a result of the inspection the Chancellor of Justice advises the clinic to implement a system which guarantees that in situations where a person has not granted their consent to the use of video surveillance in a room, the need to use video surveillance and the extent of its use should be considered in each specific case.
