

## **Inspection of the Psychiatry Clinic of Tartu University Hospital**

On 21 January 2013 advisers to the Chancellor of Justice paid an unannounced visit to the Psychiatry Clinic of Tartu University Hospital.

The advisers to the Chancellor of Justice gave particular attention to the isolation room as well as the practice and documentation of the application of restraining measures. As a result of the inspection the Chancellor of Justice suggests that in order to guarantee the fundamental rights and freedoms of persons, Tartu University Hospital guarantees that mechanical restraining is applied in the Psychiatry Department outside the field of vision of other patients.
